September 1 - October 31, 2020*

**Let Nortrax help you
protect your investment.**

WARRANTY EXPIRATION INSPECTION

\$299

+ travel and applicable taxes

What is a Warranty Expiration Inspection?

Our certified technicians and service staff will provide your machine with a detailed inspection of any warrantable concerns by doing:

- a detailed visual walk-around inspection and operational check of your machine to detect any potential problems and recommend repairs.
- a verbal and written report outlining all deficiencies, as well as recommendations to bring the unit back to optimal standards of performance.

If your equipment is currently covered under our Basic Warranty and you wish to purchase an Extended Warranty please contact your local Nortrax Product Support Technology Representative for details and pricing.

We want your machine to be in the best condition possible for maximum uptime and profitability. We are committed to providing stellar customer service to all of our valued customers. **We Stand Ready.**
